

Bucharest Metropolitan Field trip 9-12 June 2016

Programme

We invite you to explore the developments in the southern part of the city: new initiatives, cultural and social businesses, transformed industrial spaces and protected species in a green delta on an abandoned and forgotten land

On this 4-day trip you meet with colleagues: local City Makers, urban professionals, authorities and cultural entrepreneurs and you study the transition of Bucharest as a city and metropolis

Get a unique perspective on Bucharest and establish sustainable (inter) national partnerships for future cooperation and inspiration

Co-funded by the Europe for Citizens Programme of the European Union

Bucharest Metropolitan Field Trip:

Organisation
